

Ultimate Carpet & Upholstery Cleaning

Middleboro, MA

508 947-6808

Choosing a Quality Cleaning Company

Choosing a Quality Cleaning Company to perform work in your home or business is not an easy decision. Many have had bad experiences with the Low Cost Coupon type cleaning company's (bait & switch) where you were subjected to high pressure sales and charged more than you were quoted. The company was quickly in and out, the carpets were wet for days and the cleaning was less than standard.

It is easy to cut corners in this business to offer a cheaper service. Many fall to the poor quality and the disappointing results.

Never select a cleaning company based on price alone. There is more to price than how much per room, per area or per square foot. Carpet cleaning is not as cheap as some would like you to think.

You want to make sure the person entering your home or business to clean your valued possessions is Competent, Honest, Trustworthy and an IICRC certified technician.

Carpet and Upholstery Cleaners can be a "dime-a-dozen" if you are looking for just anybody to perform this service. Just look in the yellow pages. But if you desire a Quality Cleaning Company that is Honest, Trustworthy, Dependable, cares about the results of the work performed, treats your home or business with the upmost respect then ULTIMATE CARPET AND UPHOLSTERY CLEANING is the company you want to choose.

The majority of our customers are repeats and referrals because of the quality and outstanding service they receive.

Our truck is stocked with only the very best cleaning products from the top manufactures. I refuse to use discounted products that can leave a sticky residue and cause possible fiber damage to your valued possessions.
